*Time at Emar* Daniel E. Fleming 2000-06-23 The recent large-scale watershed projects in northern Syria, where the ancient city of Emar was located, have brought this area to light, thanks to salvage operation excavations before the area was submerged. Excavations at Meskeneh-Qadimeh on the great bend of the

Euphrates River revealed this large town, which had been built in the late 14th century and then destroyed violently at the beginning of the 12th, at the end of the Bronze Age. In the town of Emar, ritual tablets were discovered in a temple that are demonstrated to have been recorded by the supervisor of the local cult, who was called the "diviner." This religious leader also operated

a significant writing center, which focused on both administering local ritual and fostering competence in Mesopotamian lore. An archaic local calendar can be distinguished from other calendars in use at Emar, both foreign and local. A second, overlapping calendar emanated from the palace and represented a rising political force in some tension with rooted local institutions. The archaic local calendar can be partially reconstructed from one ritual text that outlines the rites performed during a period of six months. The main public rite of Emar's religious calendar was the zukru festival. This event was celebrated in a simplified annual ritual and in a more elaborate version of the ritual for seven days during every seventh year, probably serving as a pledge of loyalty to the chief god, Dagan. The Emar ritual calendar was native, in spite of various levels of outside influence, and thus offers important evidence for ancient Syrian culture. These texts are thus important for ancient Near Eastern cultic and

ritual studies. Fleming's comprehensive study lays the basic groundwork for all future study of the ritual and makes a major contribution to the study of ancient Syria.

Burbot Mark Everard 2021-07-23 The burbot has a unique ecology as the only member of the order of cod-like fishes found in freshwater. It is the second most widely distributed freshwater fish in the Northern Hemisphere, variously threatened, extinct or thriving across different parts of this wide paleoartic range. Burbot were driven to extinction from Britain most probably in the 1970s, the last recorded specimen caught in 1969 in Cambridgeshire. Particularly over the past decade, a large body of work has addressed potential reintroduction of the burbot to Britain. The burbot's diverse habitat and other needs throughout its life stages also mean that the species is a flagship for a diversity of other wildlife of restored river systems, and of the human benefits that these ecosystems can provide. Burbot is an excellent source for all

those involved in freshwater fish and fisheries management, conservation and exploitation.

**Event Sponsorship** Ian McDonnell 2013-12-04  
This introduction to Event Sponsorship provides students with an essential understanding of the important role of sponsorship in an event, how this can be gained and successfully managed to the benefit of both the sponsor and sponsee. The text starts with an investigation of the origins of sponsorship and then considers all important elements of Events sponsorship management. It considers what sponsorship is, its history and evolution, what its marketing uses are, how it can be used efficiently; the benefits it can bring to an event; and how its results can be measured. It also considers other funding sources for events including government grants, crowd source funding and merchandising. To reflect changes in the way firms communicate with their customers, there is a strong focus on the use of social media, e - marketing and technology in sponsorship. The text uniquely considers topics

of sponsorship from perspective of both the sponsor and the sponsee (the event) to provide a holistic view of the sponsorship process. Case Studies are integrated throughout to show how both small and large scale events have successfully gained and used sponsorship as well as potential pitfalls to avoid. Learning outcomes, discussion questions and further reading suggestions are included to aid navigation throughout the book, spur critical thinking and further students' knowledge. This is essential reading for all students studying Events Management.

Events in the City Andrew Smith 2015-11-19

Cities are staging more events than ever. Within this macro-trend, there is another less acknowledged trend: more events are being staged in public spaces. Some events have always been staged in parks, streets and squares, but in recent years events have been taken out of traditional venues and staged in prominent urban spaces. This is favoured by organisers seeking more memorable and more spectacular events, but also by authorities who want to animate urban space and make it more visible. This book explains these trends and outlines the implications for public spaces. Events play a positive role in our cities, but turning public spaces into venues is often controversial. Events can denigrate as well as

animate city space; they are part of the commercialisation, privatisation and securitisation of public space noted by commentators in recent years. The book focuses on examples from London in particular, but it also covers a range of other cities from the developed world. Events at different scales are addressed and, there is dedicated coverage of sports events and cultural events. This topical and timely volume provides valuable material for higher level students, researchers and academics from events studies, urban studies and development studies.

**English Heart, Hindi Heartland** Rashmi Sadana 2012-02-02 English Heart, Hindi Heartland examines Delhi's postcolonial literary world—its institutions, prizes, publishers, writers, and translators, and the cultural geographies of key neighborhoods—in light of colonial histories and the globalization of English. Rashmi Sadana places internationally recognized authors such as Salman Rushdie,

Anita Desai, Vikram Seth, and Aravind Adiga in the context of debates within India about the politics of language and alongside other writers, including K. Satchidanandan, Shashi Deshpande, and Geetanjali Shree. Sadana undertakes an ethnographic study of literary culture that probes the connections between place, language, and text in order to show what language comes to stand for in people's lives. In so doing, she unmasks a social discourse rife with questions of authenticity and cultural politics of inclusion and exclusion. *English Heart, Hindi Heartland* illustrates how the notion of what is considered to be culturally and linguistically authentic not only obscures larger questions relating to caste, religious, and gender identities, but that the authenticity discourse itself is continually in flux. In order to mediate and extract cultural capital from India's complex linguistic hierarchies, literary practitioners strategically deploy a fluid set of cultural and political distinctions that Sadana calls "literary

nationality." Sadana argues that English, and the way it is positioned among the other Indian languages, does not represent a fixed pole, but rather serves to change political and literary alliances among classes and castes, often in surprising ways.

Sport Tourism Heather J. Gibson 2013-09-13 The study of sport tourism is on the cusp of moving from a descriptive phase of research into an analytical phase. Consequently, many academics and graduate students are searching for theories upon which to ground their work. This book draws upon theories and concepts from sociology and anthropology (the socio-cultural perspective), sport and tourism studies, and business studies. One of the dangers of a new area of study is that the body of knowledge is built on a range of seemingly unrelated studies. By grounding work in a theoretical perspective, future work can be linked to, and contribute to building a cohesive understanding of various aspects of sport tourism. This book is an edited

collection written by some of the top scholars working in a particular domain throughout the world, providing a compendium of theories and concepts that can be used to frame research on various aspects of sport tourism. This volume was previously published as a special issue of the journal *Sport in Society*.

*The Art of Living Foundation* Stephen Jacobs  
2016-03-09 The Hindu-derived meditation movement, The Art of Living (AOL), founded in 1981 by Sri Sri Ravi Shankar in Bangalore, has grown into a global organization which claims presence in more than 150 countries. Stephen Jacobs presents the first comprehensive study of

AOL as an important transnational movement and an alternative global spirituality. Exploring the nature and characteristics of spirituality in the contemporary global context, Jacobs considers whether alternative spiritualities are primarily concerned with individual wellbeing and can simply be regarded as another consumer product. The book concludes that involvement in movements such as AOL is not necessarily narcissistic but can foster a sense of community and inspire altruistic activity.

**Global Media, Biopolitics, and Affect** Britta Timm Knudsen 2014-12-05 *Global Media, Biopolitics and Affect* shows how mediations of bodily vulnerability have become a strong political force in contemporary societies. In discussions and struggles concerning war involvement, healthcare issues, charity, democracy movements, contested national pasts, and climate change, performances of bodily vulnerability is increasingly used by citizens to raise awareness, create sympathy, encourage political action, and to circulate information in global media networks. The book thus argues that bodily vulnerability can serve as a catalyst for affectively charging and disseminating particular political events or issues by means of media. To investigate how, when and why that happens, and to evaluate the long-term social

impacts of mediating bodily vulnerability, the book offers a theoretical framework for understanding the role of bodily vulnerability in contemporary digital media culture. Likewise, it presents a range of close empirical case studies in the areas of illness blogging, global protests after the killing of Neda Agda Soltan in Iran, charity communication, green media activism, online war commemoration and digital witnessing related to conflicts in Sarajevo and Ukraine.

**Reclaiming Popular Documentary** Christie Milliken 2021-07-06 The documentary has achieved rising popularity over the past two decades thanks to streaming services like Netflix and Hulu. Despite this, documentary studies still tends to favor works that appeal primarily to specialists and scholars. *Reclaiming Popular Documentary* reverses this long-standing tendency by showing that documentaries can be—and are—made for mainstream or commercial audiences. Editors Christie Milliken

and Steve Anderson, who consider popular documentary to be a subfield of documentary studies, embrace an expanded definition of popular to acknowledge the many evolving forms of documentary, such as branded entertainment, fictional hybrids, and works with audience participation. Together, these essays address emerging documentary forms—including web-docs, virtual reality, immersive journalism, viral media, interactive docs, and video-on-demand—and offer the critical tools viewers need to analyze contemporary documentaries and consider how they are persuaded by and represented in documentary media. By combining perspectives of scholars and makers, *Reclaiming Popular Documentary* brings new understandings and international perspectives to familiar texts using critical models that will engage media scholars and fans alike.

*The Festival Cities of Edinburgh and Adelaide* Sarah Thomasson 2022-08-20 *The Festival Cities of Edinburgh and Adelaide* examines how these cities' world-famous arts events have shaped and been shaped by their long-term interaction with their urban environments. While the Edinburgh International Festival and Adelaide Festival are long-established, prestigious events that champion artistic excellence, they are also accompanied by the two largest open-access fringe festivals in the world. It is this simultaneous staging of multiple events within Edinburgh's Summer Festivals and Adelaide's Mad March that generates the visibility and festive atmosphere popularly associated with both places. Drawing on perspectives from

theatre studies and cultural geography, this book interrogates how the Festival City, as a place myth, has developed in the very different local contexts of Edinburgh and Adelaide, and how it is challenged by groups competing for the right to use and define public space. Each chapter examines a recent performative event in which festival debates and controversies spilled out beyond the festival space to activate the public sphere by intersecting with broader concerns and audiences. This book forges an interdisciplinary, comparative framework for festival studies to interrogate how festivals are embedded in the social and political fabric of cities and to assess the cultural impact of the festivalisation phenomenon.

'I'm going to camp out on the land ... try and get my soul free'. So sang Joni Mitchell in 1970 on 'Woodstock'. But Woodstock is only the tip of the iceberg. Popular music festivals are one of the strikingly successful and enduring features of seasonal popular cultural consumption for young people and older generations of enthusiasts. From pop and rock to folk, jazz and techno, under stars and canvas, dancing in the streets and in the mud, the pleasures and politics of the carnival since the 1950s are discussed in this innovative and richly-illustrated collection. The Pop Festival brings scholarship in cultural studies, media studies, musicology, sociology, and history together in one volume to explore the music festival as a key event in the cultural landscape - and one of major interest to young people as festival-goers themselves and as students.

**Avocado** Jeff Miller 2020-04-13 The avocado is arguably the most iconic food of the twenty-first century. In less than one-hundred years, it has gone from a little-known regional delicacy to global embrace and social media fame. This may seem like an astounding trajectory for a fruit that isn't sweet, that gets bitter when it is cooked, and has perhaps the oddest texture of any fruit or vegetable. But it is precisely the avocado's contradictions that have contributed to its ascent: the idea that this rich and delicious fruit is also healthy despite being fatty and energy-dense grants it unicorn status with modern eaters, especially millennials. Through lively anecdotes, colorful pictures, and delicious recipes, Jeff Miller explores the meteoric rise of the avocado, from its coevolution with the megaherbivores of the Pleistocene to its acceptance by the Spanish conquistadors in Mexico, to its current dominance of food

consumers' imaginations.

**Contemporary Dance Festivals in the Former Yugoslav Space** Alexandra Baybutt 2023-06-09 This book expands the understanding of conditions defining the creation and circulation of contemporary dance that differ across Europe. It focuses on festival-making connected with the Balkan regional project 'Nomad Dance Academy' (NDA), and highlights collective approaches to sustain a theorisation of festivals using the concepts of dissensus and imperceptible politics. Drawing from anthropological methods, three festivals PLESkavica, Slovenia; Kondenz, Serbia and LocoMotion, North Macedonia, are explored through social, political and historical currents affecting curatorial practice. This book closely follows how festival-makers navigate the values of international development that during and after the Yugoslav wars looked to art as part of peacekeeping and nation-building processes.

This coincided with increasing discourse and practices of contemporary dance that gained momentum in the 1980s alongside European festivalisation. I show how contemporary dance acts as an agent for transformation, but also a carrier of older forms of social organisation, reflecting methods and values of Yugoslav Worker Self-management that are deployed by the groups creating the festivals. This book will be of interest to dance scholars as well as researchers tracing the long-term effects of the dissolution of the Socialist Federal Republic of Yugoslavia.

**The Oxford Handbook of Shakespeare and Performance** James C. Bulman 2017-11-16

Shakespearean performance criticism has undergone a sea change in recent years, and strong tides of discovery are continuing to shift the contours of the discipline. The essays in this volume, written by scholars from around the world, reveal how these critical cross-currents are influencing the ways we now view Shakespeare in performance. The volume is organised in four Parts. Part I interrogates how Shakespeare continues to achieve contemporaneity for Western audiences by exploring modes of performance, acting styles, and aesthetic choices regarded as experimental. Part II tackles the burgeoning field of reception: how and why audiences respond to performances as they do, or actors to the conditions in which they perform; how immersive productions turn spectators into actors; how memory and cognition shape and reshape the performances we think we saw. Part III addresses the ways in which revolutions in technology have altered our views of

Shakespeare, both through the mediums of film and sound recording, and through digitalizing processes that have generated a profound reconsideration of what performance is and how it is accessed. The final Part grapples with intercultural Shakespeare, considering not only matters of cultural hegemony and appropriation in a 'global' importation of non-Western productions to Europe and North America, but also how Shakespeare has been made 'local' in performances staged or filmed in African, Asian, and Latin American countries. Together, these ground-breaking essays attest to the richness and diversity of Shakespearean performance criticism as it is practiced today, and they point the way to critical continents not yet explored.

*Managing Organisational Success in the Arts*  
David Stevenson 2018-10-10 The creative and cultural industries are a dynamic and rapidly expanding field of enterprise. Yet all too often the dominant narrative about arts organisations is one of crisis, collapse, and closure. This edited collection seeks to challenge that narrative through pursuing a focus on organisational success in the management of creative and cultural organisations. This book offers a robust and in-depth analysis of nine international case studies exploring how different organisations have achieved their objectives through

effectively managing their resources. Spanning a broad cross section of the cultural sector including Theatres; Multi-Arts Venues; Performing Arts Companies; Museums and Galleries; and Festivals and Events, these cases highlight the importance of examining an individual organisation's success in relation to its environmental context, revealing not only how arts organisations work in practice, but also providing inspiration and encouragement for those wishing to emulate such success. With an explicit focus on examining theory in practice, this unique collection will be of great interest to students, academics, and practitioners alike. While traditional approaches have often been overly theoretical, this pragmatic approach will help students to gain a richer understanding of how to manage cultural and creative organisations more effectively.

*The Queer Film Festival* Stuart James Richards  
2017-01-05 This book examines the queer film festival and opens the discussion on social

enterprises and sustainable lesbian, gay, bisexual, transgender and intersex (LGBTI) organisations. With over 220 events worldwide and some of the bigger budgets exceeding \$1 million, the queer film festival has grown to become a staple event in all cosmopolitan cities' arts calendars. While activism was instrumental in establishing these festivals, the pink dollar has been a deciding factor in its financial sustainability. Pretty gay boys with chiselled abs are a staple feature, rather than underground experimental faire. Community arts events, such as these, are now a creative industry. While clearly having a social purpose, they must also concern themselves with the bottom line. For all the contradictory elements of its organisational growth, this conflict makes the queer film festival an integral site for analysis. This book takes a multidisciplinary approach in examining the queer film festival as a representative snapshot of the current state of queer cinema and community based film festivals. The book

looks at queer film festivals in San Francisco, Hong Kong and Melbourne to argue for the importance of these institutions remaining as community events.
