Improving Adult Literacy Instruction National Research Council 2012-04-26 A high level of literacy in both print and digital media is required for negotiating most aspects of 21st-century life, including supporting a family, education, health, civic participation, and

competitiveness in the global economy. Yet, more than 90 million U.S. adults lack adequate literacy.

Furthermore, only 38 percent of U.S. 12th graders are at or above proficient in reading.

Improving Adult Literacy Instruction synthesizes the research on literacy and learning to improve literacy instruction in the United States

and to recommend a more systemic approach to research, practice, and policy. The book focuses on individuals ages 16 and older who are not in K-12 education. It identifies factors that affect literacy development in adolescence and adulthood in general, and examines their implications for strengthening literacy instruction for this population. It also discusses technologies for learning that can assist with multiple aspects of teaching, assessment, and accommodations for learning. There is inadequate knowledge about effective instructional practices and a need for better assessment and ongoing monitoring of adult students' proficiencies, weaknesses, instructional environments, and progress, which might guide instructional planning. Improving Adult Literacy Instruction recommends a program of research and innovation to validate, identify the boundaries of, and extend current knowledge to improve instruction for adults and adolescents outside school. The

book is a valuable resource for curriculum developers, federal agencies such as the Department of Education, administrators, educators, and funding agencies.

Presenting rigorous and original research, this volume offers key insights into the historical, cultural, social, economic and political forces at play in the creation of world-class ICT innovations in Kenya. Following the arrival of fiber-optic cables in 2009, *Digital Kenya* examines why the initial entrepreneurial spirit and digital revolution has begun to falter despite support from motivated entrepreneurs, international investors, policy experts and others. Written by engaged scholars and professionals in the field, the book offers 15 eye-opening chapters and 14 one-on-one conversations with entrepreneurs and investors to

ask why establishing ICT start-ups on a continental and global scale remains a challenge on the “Silicon Savannah”. The authors present evidence-based recommendations to help Kenya to continue producing globally impactful ICT innovations that improve the lives of those still waiting on the side-lines, and to inspire other nations to do the same.

A Commentary on the Civil Procedure Act Steve Ouma 2013-12-29 This book presents a detailed and practical explanation of the law of Civil Procedure in Kenya. It discusses the principles of Civil procedure Law in a practical setting. The intricate points of law have been illustrated by examples, and in the introduction the subject has been dealt with by topics rather than in the strict order of sections in the Act and Rules. This has been done to avoid cross-referencing to enable users to adequately grasp the doctrinal aspects of the subject.

Revisiting Technical and Vocational Education in Sub-

Saharan Africa David Atchoarena 2002 Differences in historical, political, cultural, and economic contexts in sub-Saharan Africa (SSA) account for wide variations in structures, operating conditions, and outcomes in technical and vocational education (TVE). This diversity is associated with glaring disparities, so in examining policy trends and the reconstruction of training systems particular attention is focused on innovations in an effort to identify promising initiatives likely to contribute to the establishment of consistent TVE systems, closely linked with the world of work and involving labor market stakeholders. Some common emerging trends in TVE include the following: (1) a shift in the policy focus from inputs to outputs; (2) the use of new financing and certification mechanisms; (3) the involvement of social partners in governance; greater autonomy for institutions; (4) the promotion of private providers and company-based

training; and (5) an increasing interest in the informal sector and skills development for poverty reduction. Issues addressed include these: (1) an overview of TVE systems in 10 SSA countries; (2) reviewing various models currently in place; (3) documenting relationships between African TVE systems and policies and donor intervention and traditions in TVE; (4) identifying reasons why certain reforms are facing implementation difficulties; analyzing specific innovations; (5) drawing lessons on the implementation of the reform agenda and its impact on TVE systems; and (6) discussing possible directions for future donor support. (Includes 167 references.) (MO).

Musicology and Dance Davinia Caddy 2020-08-27 Long treated as peripheral to music history, dance has become prominent

within musicological research, as a prime and popular subject for an increasing number of books, articles, conference papers and special symposiums. Despite this growing interest, there remains no thorough-going critical examination of the ways in which musicologists might engage with dance, thinking not only about specific repertoires or genres, but about fundamental commonalities between the two, including embodiment, agency, subjectivity and consciousness. This volume begins to fill this gap. Ten chapters illustrate a range of conceptual, historical and interpretive approaches that advance the interdisciplinary study of music and dance. This methodological eclecticism is a defining feature of the volume, integrating insights from critical theory, film and cultural studies, the visual arts, phenomenology, cultural anthropology and literary criticism into the study of music and dance.

The African Film Industry UNESCO 2021-10-01 The production and distribution of film and audiovisual works is one of the most dynamic growth sectors in the world. Thanks to digital technologies, production has been growing rapidly in Africa in recent years. For the first time, a complete mapping of the film and audiovisual industry in 54 States of the African continent is available, including quantitative and qualitative data and an analysis of their strengths and weaknesses at the continental and regional levels. The report proposes strategic recommendations for the development of the film and audiovisual sectors in Africa and invites policymakers, professional organizations, firms, filmmakers and artists to implement them in a concerted manner.

The Role of Technology in Water Resources Planning and Management

Elizabeth M. Perez 2009 Technology plays a vital role in influencing sound decisions regarding water resources. The mission of this book is to show the impact technology has had on water resource planning and management historically, and into the future. This study provides: The range of technologies applicable to water resource planning, management, and policy making The research and analysis of new technologies such as adaptive management, shared vision modeling, and geographic information systems A foundation for research into similar disciplines Selected case studies cover a variety of settings, materials, and insights into new technological approaches. This publication is a valuable resource for students, engineers, practitioners, and educators. *Industrial Clusters and Innovation Systems in Africa* Banji Oyelaran-Oyeyinka 2007

This book examines the incidence and role of clusters as a viable and increasingly important form of industrial organization in Africa. It presents a series of theoretically grounded case studies that analyze clusters in different industrial sectors and at different levels of economic development. The overall aim is to improve understanding of how local clusters can be transformed into local systems of innovation and how local clusters can be better connected to global actors. The authors draw out implications for policy and practice and provide guidance to governments, private sector associations, and non-governmental organizations.-- Publisher's description.

Secretariat 2017-09-04 Youth Work in the Commonwealth: A Growth Profession establishes a baseline to inform the planning and implementation of initiatives to professionalise youth work in Commonwealth member countries. The study was conducted in 35 countries in the Africa, Asia, the Caribbean/Americas, Europe and Pacific regions. It catalogues the extent to which the youth work profession is formally recognised in these countries and examines the qualities and rights-based ethos of the various forms of youth work promoted and practised in the Commonwealth. The report aims to help countries learn from good practices, and assess gaps in establishing youth work as a recognised profession in diverse contexts.

Sustainable Sanitation for All Petra Bongartz 2016 Great strides have been made in improving sanitation in many developing countries. Yet, 2.4 billion people worldwide still lack access to adequate sanitation facilities and the

poorest and most vulnerable members of society are often not reached and their specific needs are not met. Moreover, sustainability is currently one of the key challenges in CLTS and wider WASH practice, subsuming issues such as behaviour change, equity and inclusion, physical sustainability and sanitation marketing, monitoring and verification, engagement of governments, NGOs and donors, particularly after open defecation free (ODF) status is reached, and more. Achievement of ODF status is now recognised as only the first stage in a long process of change and sanitation improvement, with new challenges emerging every step of the way, such as how to stimulate progress up the sanitation ladder, how to ensure the poorest and marginalised are reached, or how to maintain and embed behaviour change. There have been several useful studies on sustainability that have highlighted some of these different aspects as well as the

complexities involved. This book develops these key themes by exploring current experience, practices, challenges, innovations and insights, as well as identifying a future research agenda and gaps in current knowledge. Describing the landscape of sustainability of CLTS and sanitation with reference to the Sustainable Development Goals (SDGs) and through examples from Africa and Asia, the book captures a range of experiences and innovations from a broad range of institutions and actors within the WASH sector, and attempts to make recommendations and practical suggestions for policy and practice for practitioners, funders, policy-makers and governments.

Higher Education Financing in East and Southern Africa
Pundy Pillay 2010-07-12 This nine-country study of higher education financing in Africa includes three East African states (Kenya, Tanzania and Uganda), five countries in southern Africa (Botswana, Lesotho, Mozambique, Namibia and South Africa), and an Indian Ocean island state (Mauritius). Higher Education Financing in East and Southern Africa explores trends in financing policies, paying particular attention to the nature and extent of public sector funding of higher education, the growth of private financing (including both household financing and the growth of private higher education institutions) and the changing mix of financing instruments that these countries are developing in response to public sector financial constraints. This unique collection of African-country case studies draws attention to the remaining

challenges around the financing of higher education in Africa, but also identifies good practices, lessons and common themes.

girls themselves to helpless victims of gender-related forms of oppression. Heather Switzer's interviews with over one hundred Kenyan Maasai schoolgirls challenge the widespread view of education as a silver bullet solution to global poverty. In their own voices, the girls offer incisive insights into their commitments, aspirations, and desires. Switzer weaves this ethnographic material into an astute analysis of historical literature, education and development documents, and theoretical literature. Massai schoolgirls express a particular knowledge about themselves and provocative hopes for their futures. Yet, as Switzer shows, new opportunities force them to face, and navigate, new vulnerabilities and insecurities within a society that is itself in flux.

Education for Rural

Development Food and Agriculture Organization of the United Nations 2003 An international joint study by the Food and Agriculture Organization of the United

Nations (FAO) and UNESCO's International Institute for Educational Planning (IIEP) was conducted on education and rural development to review the status of the topic from the standpoint of public policies and the conceptual frameworks on which they are based and also to shed light on what may be called "good practice." The findings of the study are meant to serve not as models, but rather as points of reference for all those who are seeking ways of developing education in rural areas and contributing more effectively to rural development. Chapter I, "Education and Rural Development: Setting the Framework" (David Atchoarena and Charlotte Sedel), provides a contextual and theoretical introduction to the new rural development and poverty reduction thinking, as well as a discussion on the contribution of education to rural development. In Chapter II, "Basic Education in Rural Areas: Status, Issues and Prospects" (Michael Lakin with Lavinia Gasperini), the book

reviews in depth the provision of basic education in rural areas and offers some policy directions for improvement. Further exploring a particular dimension of basic education, Chapter III, "Making Learning Relevant: Principles and Evidence from Recent Experiences" (Peter Taylor, Daniel Desmond, James Grieshop and Aarti Subramaniam), devotes specific attention to strategies linking the formal school teaching with students' life environment, including agriculture, and to garden-based learning. The intention is to provide updated information and new insights on much-debated aspects which are often associated with rural areas although their application is much broader. Chapter IV, "Strategies and Institutions for Promoting Skills for Rural Development" (David Atchoarena, Ian Wallace, Kate Green, and Candido Alberto Gomes), shifts the analysis from education to work and discusses the implications of the

transformation of rural labor markets for skill development. A particular concern is the rise in rural non-farm employment and the need to enlarge the policy focus from agricultural education and training to technical and vocational education for rural development. This debate is taken further in Chapter V, "Higher Education and Rural Development: A New Perspective" (Charles Maguire and David Atchoarena), which considers higher level skills and the contribution of the tertiary education sector to rural development. Special attention is given to the reform of higher agricultural institutions and lessons based on case studies are provided to document good practice in institutional reform. Finally, Chapter VI, "Main Findings and Implications for Policy and Donor Support" (David Atchoarena with Lavinia Gasperini, Michael Lakin and Charles Maguire), concentrates on the main findings of the study and discusses policy implications and possible

responses for donors and countries. (Contains 28 tables, 14 figures, and 64 boxes.). *Fountain of Knowledge* Madara M Ogot 2021-05-14 Fountain of Knowledge: History of the University of Nairobi 1952-2020 follows the development of the University from its origins as the Royal Technical College in 1952, to the World Class University it has become in 2020. As the 'mother' university in Kenya, its history also provides a narrative of the evolution of university education in Kenya over the same period. Major events, activities and policies changes that have shaped university education are presented in the context of the University of Nairobi's growth. Throughout the text, a large collection of photographs brings to life the development of the university over the past 68 years.
