Huckleberry Finished Livia J Washburn 2010-11-01 Dead Man Overboard! Delilah Dickinson's literary travel agency is a hit! But the latest package tour, a leisurely steamboat trip down Huckleberry Finn's Mississippi, delivered one dead passenger. As it turns out, Ben Webster made a few enemies before he expired by trying to slug a roulette dealer. Delilah knows the steamship's no-nonsense head of security definitely is dirty and low-down and

just plain old mean. . .but could he be a murderer? Pretty soon her list of suspects is longer than the Mississippi is wide. . .not to mention she's taken quite a shine to Mark Twain himself--or rather Mark Lansing, the handsome actor playing Huck Finn's scribe for the tour. Of course, things just ain't never what they seem when Delilah's at the helm, and one tricky murder turns into two and things start to get pretty dicey on yonder steamboat. Hopefully Delilah can nab the killer before she's too many fathoms deep. . . Praise for Livia J. Washburn and Frankly My Dear, I'm Dead "Amusing, breathlessly quick." --Publishers Weekly "Gone with the Wind fans will cozy up to this tale." --Mystery Scene "Livia J. Washburn's mysteries are among the best." --Mystery News

The Fifth Horseman and the New MAD

Harlan Ullman 2021-12-14 Beyond traditional threats from states such as China and Russia and non-state actors employing violent extremism, can America's politics and political system withstand the assaults of the Fifth Horseman and the new MAD, Massive Attacks of Disruption? The Covid-19 pandemic, the January 6 insurrection and takeover of the US Capitol, SolarWinds cyber attacks, the Texas storms that cut power, and the blocking of the Suez Canal are harbingers of the new MAD. And the nation is unaware and unprepared to deal with them. What must be done? First, we must recognize the potentially existential dangers posed by MAD. Second, we must reorganize government to meet these dangers. Third, we need new national security strategies to protect, defend, and mitigate these new threats. Fourth, we must create a private-public partnership in a national re-investment fund that can redress many of the risks of MAD. In this transformative and highly innovative and provocative book, Dr. Harlan Ullman issues a dramatic warning about so far unrecognized existential dangers to the nation and offers a plan of action America must take if the Fifth Horseman and the new MAD are to be tamed or broken.

Fitrah- Mans Natural Disposition MURTADHA. MUTAHHARI 2021-11-27 "Fitrah: Man's Natural Disposition" is a translation of the Persian book "Fi?rat" by the great Muslim thinker and reformer, Ayatollah Murtada Mutahhari. "Fitrah" is the theme of a 10-session lecture series given the martyred thinker in 1976-77. With ample citations from the Qur'an and other traditional Islamic sources, Mutahhari discusses the concept of 'fitrah' or man's natural disposition. The author does not confine himself to Islamic references as he continuously engages with the views of a wide range of philosophers including Plato, William James, Russell, Nietzsche, Marx, Feuerbach, Auguste Comte, Spencer, Will Durant, and Durkheim, among others. Mutahhari's ontological discussion covers a range of issues, including the literal and technical meaning of 'fitrah', sacred inclinations, love and worship, and the evolution of human originality. He also examines materialism and provides a theistic approach to some issues pertaining to the theories on the origin of religion, the evolution of human society, intrinsic and acquired guidance, and intuitive and sensory dispositions. This book lays a significant interconnected and deep foundation in Islamic theology and an understanding of human psychology, sociology and anthropology fully supported by the holy Quran, ahadith, logic and philosophy. The reader will leave with a holistic understanding of Islam and a true connection with the Almighty (SWT) through one own self.

Marine Diesel Engines Nigel Calder 2003

Nigel Calder, a diesel mechanic for more than 25 years, is also a boatbuilder, cabinetmaker, and machinist. He and his wife built their own cruising sailboat, Nada, a project they completed in 1984. Calder is author of numerous articles for *Yachting Monthly* and many other magazines worldwide, as well as the bestselling *Boatowner's Practical and Technical Cruising Manual* and *Boatowner's Mechanical and Electrical Manual*, both published by Adlard Coles Nautical. Here, in this goldmine of a book, is everything the reader needs to keep their diesel engine running cleanly and efficiently. It explains how diesel engines work, defines new terms, and lifts the veil of mystery that surrounds such engines. Clear and logical, this extensively illustrated guide will enable the reader to be their own diesel mechanic. As Nigel Calder says: 'there is no reason for a boatowner not to have a troublefree relationship with a diesel engine. All one needs is to set the engine up correctly in the first place, to pay attention to routine maintenance, to have the knowledge to spot early warning signs of impending trouble, and to have the ability to correct small ones

before they become large ones.'
